FIGHT FLU – Get a Flu Vaccine!

Your protection from the flu vaccine decreases over time so it is important to get vaccinated every year. Influenza (flu) can cause mild to severe illness, and at times can lead to death. The flu vaccine can be lifesaving for children.

FLU SYMPTOMS - Flu usually comes on suddenly.

Fever* or feeling feverish/chills, cough, sore throat, runny or stuffy nose, muscle or body aches, headaches, fatigue (tiredness).

Some people may have vomiting and diarrhea, though this is more common in children than adults. This information and more can be found at <https://cdc.gov/flu> or call 1-800-CDC-INFO

*It's important to note that not everyone with flu will have a fever.
